

How to determine the model number of your Classic Series Steel BILCO Basement Door

Step 1

Measure the width (W), length (L), and height (H) of your BILCO Basement Door as shown in the photo below. If your door has an extension panel(s), skip to Step 3 as you have a Size C basement door. Only Size C doors are available with extension panels.

Step 2

Match your basement door dimensions to the BILCO Basement Door Size below.

Size B

Width = 51"
Length = 64"
Height = 22"

Size C

Width = 55"
Length = 72"
Height = 19.5"

Size O

Width = 47"
Length = 58"
Height = 30"

Size SL

Width = 51"
Length = 43.25"
Height = 52"

The BILCO Company no longer supports replacement parts for doors manufactured prior to 2010 with torsion rod lift assistance.
