How to determine the model number of your Classic Series Steel BILCO Basement Door

Step 1

Measure the width (W), length (L), and height (H) of your BILCO Basement Door as shown in the photo below. If your door has an extension panel(s), skip to Step 3 as you have a Size C basement door. Only Size C doors are available with extension panels.

Step 2

Match your basement door dimensions to the BILCO Basement Door Size below.

Size B
Width = 51"
Length = 64"
Height = 22"

Size C
Width = 55"
Length = 72"
Height = 19.5"

Size O
Width = 47"
Length = 58"
Height = 30"

Size SL
Width = 51"
Length = 43.25"
Height = 52"

Step 3

Determine if your basement door has gas spring or torsion rod lift assistance from the photos below and select your basement door model number from the table on the right.

Gas Spring Lift Assistance
Newer Models

Torsion Rod Lift Assistance
Older Models

Size	Lift Assistance	Model #
B	Gas Spring	SZ BG
	Torsion Rod	SZ BN
C	Gas Spring	SZ CG
	Torsion Rod	SZ CN
O	Gas Spring	SZ OG
	Torsion Rod	SZ ON
SL	Gas Spring	SZ SLG
	Torsion Rod	SZ SLN
